CS 340 – Program 2

In this assignment you will be adding to the Company website from Program 1 the following functionality.

1. View dependents for a given employee
2. Add a new dependent for a given employee
3. Update information about a dependent.
4. Delete a dependent from an employee's list of dependents

You can reused/modify any of the code given to you for Program 1 or implement the above requirements using your own "style". The implementation shown below is similar to Program 1 in format.

1. View dependents for a given employee:

An icon is added to the Action column of the Employee Detail's table which links to a view dependents page.

Below is the view dependents page when there are no dependents.

The view dependents page containing a dependent.

2. Add a new dependent for a given employee

If you click on the "Add New Dependent" button a form is displayed in the create dependent page.

Create a Dependent

Employee SSN = 999886565

Dependent's Name

Relationship

Sex

Birth date

08/02/2020

Submit Cancel

Create a Dependent

Employee SSN = 999886565

Dependent's Name

Tommy

Relationship

Son

Sex

M

Birth date

06/02/2020

Submit Cancel

After submitting the information about the dependents is inserted in the database.

Dependent list for SSN = 999886565

Add New Dependent

Dependent's Name	Sex	Birthdate	Relationship	Action
Tommy	M	2020-06-02	Son	✏️ 🗑️

Back

3. Update information about a dependent.
   If you click on the "pencil" icon a form is displayed so you can update information about that dependent. Below the dependent's name is changed from Tommy to Thomas.

Update Record for SSN = 999886565

Please edit the input values and submit to update.

Dependent Name

Tommy

Relationship

Son

Sex

M

Birth date

06/02/2020

Submit Cancel

CS 340 – Program 2

Dependent list for SSN = 999886565

Add New Dependent

Dependent's Name	Sex	Birthdate	Relationship	Action
Thomas	M	2020-06-02	Son	✏️ 🗑️

Back

4. Delete information about a dependent.
   If you click on the "trash can" icon the information about that dependent is deleted from the database.
